Homework – do … while loop

1. What would be written by the program fragment shown below if it were given the following input sequence?   -5   0   26

```
System.out.println("How many items to add?");
do {
     howMany = sc.nextInt();
     if (howMany <= 0) {
          System.out.println("Give a positive
value.");
     }
}
while (howMany <= 0);
```

Give a positive value.
Give a positive value.
