HW – Arrays

1. Consider the following declaration:

```
String skiResorts[]= {
   "Whistler Blackcomb", "Squaw Valley",
   "Brighton","Snowmass", "Sun Valley",
   "Taos"
};
```

   a) What is the index of Brighton in the following array?
      2
   b) Write an expression that refers to the string Brighton within the
      array.
      skiResorts[2]
   c) What is the value of the expression skiResorts.length?
      6
   d) What is the index of the last item in the array?
      5
   e) What is the value of the expression skiResorts[4]?
      Sun Valley
